CUB(AN)ISM

Aruán Ortiz: Piano

Intakt CD 290

Aruán Ortiz, acclaimed as a piano cubist, excellent jazz improviser and wayward stylist who strays far from Cuban music while remaining so deeply rooted in Cuba's musical tradition, presents an impressive trio album with two congenial collaborators Brad Jones and John Betsch. Cuban influences from toques, rumba and Afro-Haitian music blend with European art music and modern jazz. "Serranías" is a special album for a double anniversary: the 20th anniversary of the recording debut as a leader in the United States and the 50th birthday milestone of Aruán Ortiz, a pianist-composer from Santiago de Cuba who has become an undisputed protagonist of the New York avant-garde jazz scene thanks to the original processes of abstract Cuban creative crossfertilization that he composes with unusual Afro-Cuban/Haitian accents," writes Gian Franco Grilli in the liner notes.

Aruán Ortiz, gefeiert als Piano-Kubist, exzellerter Jazz-improvisator und eigensinniger Stilist, der sich weit von der kubanischen Musik entfernt und gleichzeitig so tief in der kubanischen Musiktradition verwurzelt bleibt, legt mit seinen kongenialen Mitmusikern Brad Jones und John Betsch ein beeindruckendes Trio-Album vor. Kubanische Einflüsse aus Toques, Rumba und afro-haitianischer Musik vermischen sich mit europäischer Kunstmusik und modernem Jazz. «Serranías» ist ein spezielles Album für einen doppelten Jubiläum: die 20-jährige Karriere als Leader in den USA und der 50. Geburtstag von Aruán Ortiz, einem Pianist-Komponisten aus Santiago de Cuba, der zu einem unbestrittenen Protagonisten des New York avant-garde Jazz geworden ist, dank der originalen Prozesse der abstrakten kubanischen kreativen Kreuzfrucht, die er mit ungewöhnlichen Afro-Cuban/Haitian Akzenten komponiert», schreibt Gian Franco Grilli in den Linernotes.
